Host Broadcast Services

CAD Specialist / Site manager

During the preparation period of the FIFA 2018 World Cup in Russia, i was part of Host Broadcast Services (HBS), i was the main coordinator between our managers and the architects of the 12 venues of the Word Cup. I successfully produced, updated and shared all the different drawings between internal and external stakeholders.

During the operation period of the FWC18, I was a site manager based in our temporary site, the Outside Presentation Studios on the Red Square in Moscow. I Managed the site during construction, operation and dismantling periods.

About me

I have been studying at GeekBrain online university since March 2020, my current studying field is Computer Vision.

While i was studying i came across Crypto and blockchain technologies, was fascinated by it, so lately i started to study the Rust language.

Want work in crypto, considering also an intern position as Rust developer.
